

I am an XM Radio subscriber and satellite radio supporter. What the NAB is trying to do to limit or change this service is wrong! Living in the DC/Baltimore area, I benefit greatly from the instant traffic and weather. In an area where getting updated information even a few minutes too late can make the commute a nightmare, the XM traffic and weather has proved itself extremely valuable. It is just not possible to get this service from conventional radio stations. I urge you to reject NAB petition 04-160. I pay a monthly fee to be able to enjoy this service. No person or organization should prevent me from doing this.

Respectfully
Jeff Churilla
